Introduction

The Labour Rights Index 2022 (LRI 2022) is a de-jure index covering 135 economies and structured around the working lifespan of a worker. In total, 46 questions or evaluation criteria are scored across 10 indicators. The overall score is calculated by taking the average of each indicator, with 100 being the highest possible score. The Index uses a rating system, ranging from "Total Lack of Decent Work" to "Decent Work". The Labour Rights Index aims at an active contribution to the Sustainable Development Goals, by providing necessary (complementary) insights into de jure provisions on issues covered in particular by SDG8 (Decent Jobs), SDG 5 (Gender Equality), SDG 10 (Reduced Inequalities) and SDG 16 (Strong Institutions). The Index is based on national labour legislation, applicable on 1 January 2022. The Index does not take into account COVID-19 related labour market measures in its scoring.

Yemen's overall score is 57 out of 100. The overall score for Yemen is lower than the regional average observed across the Middle East and North Africa (61.26). Within the Middle East and North Africa region, the highest score is observed for Morocco (79.5).

² Share of informal employment in total employment (%), as measured under SDG 8.3.1

³ Proportion of the country population covered by social protection floors, as measured under SDG 1.3.1

⁹ The Index has 10 indicators and 46 evaluation criteria or questions.

¹⁰ The prohibited grounds for discrimination are "race, colour, sex, religion, political opinion, national extraction or social origin, age, disability and trade union membership". A score of 1 is assigned only if a country has prohibited discrimination on at least 7 of the above 10 grounds.

¹¹ A country's score on LRI's Trade Union indicator must also be read together SDG indicator 8.8.2 which measures the level of national compliance with labour rights (freedom of association and collective bargaining) based on ILO textual sources and national legislation. It has a range from 0 to 10, with 0 being the best possible score (indicating higher levels of compliance with FACB rights) and 10 the worst (indicating lower levels of compliance with FACB rights). No score is available for the Yemen on SDG 8.8.2

The Index uses Observations/Direct Requests from ILO CEACR and the US Department of State's Country Reports on Human Rights Practices (US DOS CRHRP) to measure a country's compliance on the Trade Union indicator.
